

The T3 Awards 2017 together with Three: all of this year's winners

Best Wi-Fi / Multi-Room Speaker - Denon Heos 7 HS2

What do you want from a multi-room speaker setup? You want top-quality audio performance, you want speed and reliability, and as an added bonus you want some stylish looks for your speaker as well, all of which Denon's flagship provides in spades.

We love the looks of the Heos 7 HS2, we love the immersive wall of sound it creates from its diminutive frame, and we love the straightforward app and simple setup that goes along with the hardware. You can't do any better for your wireless speakers in 2017.
